

Valuable Auto Accident Advice

- SEE A DOCTOR IMMEDIATELY. Your injury could be more serious than you realize. We can help you find a good doctor if needed.
- DO NOT GIVE A STATEMENT (written or recorded) to anyone—it's evidence and can be used against you.
- DO NOT SIGN ANYTHING—it could be a RELEASE (which ends your rights to collect in the future even if your injury is more serious than you think) or an AUTHORIZATION which allows them to get all records, even old records that have nothing to do with the accident.
- TAKE PICTURES OF THE DAMAGE. Make sure you take photos of the accident even if the police do. The more the better.
